

## What is Document Sharing

This document sharing site will be a notebook, which will help the people to storing any important document for further uses and sharing. People can delete their previous notes, edit their existing notes also. After accessing this site they log out from this site and also by logging they can uses this site in next time. The document sharing site will used for any people and will provide various facilities. If we have a site for sharing all important document that will be very useful for our further uses.
